SPECIAL NOTICES.

LET THOSE WHO HAVE DOUBTED the virtues of Bull's Curson Burrans, if any such there be, read the following certificate from gentlemen well known in this community, and doubt no more.

Its general introduction into the army will save the lives of thousands of our soldiers:

Locisville, June 3d, 1863. We, the undersigned, have seen the good effects of Dr. Jons Bull's Capsen British in case of general debility and prostration of the system, and believe its general use would prevent disease and relieve much suffering. Among our soldiers particularly would this be the case, especially these who are exposed to the miasmatic influences in the Southern climate.

MEDICAL.

How Destroyed, How Restored. Dr. N. S. PENDERY.

Physician and Surgeon, No. 24 1-2 E. Washington St.

N CONNECTION WITH THE GENERAL PRACTICE of Medicine, I treat by a new and reliable medium, and with the happiest results, all forms of diseases of the Nervous, Seminal and Urinary and Sexual systems. Young men with hollow cheeks and pallid countenance, telling in fearful language the silent working of some formidable disease undermining your constitution, memory and reason, hurrying you to a premature death, reflect while reason holds sway and avail yourself of a cures the harrassing weakness and other causes of serious difficulty and perpetual annoyance.

Spermatorrhoa, Seminal Weakness, Nocturnal Emis slons, Sexual Debility, impotency, Effects of Self-Abuse, and their results—Inability to Consummate the Marriage Contract, Mental and Physical Prostration, Epilepsy,

insanity and Consumption. Like a staunch murderer, steady to his porpose, Presses him close through every lane of life, Nor misses once the track, but presses en. Till forced at last to the tremendous verge, And at once he sinks."

Likew se, I will guarantee a radical cure of Syphilis, Gonorrhoea and Gleet, in all their stages, entirely re-moving from the blood the last spark of these terrible diseases that so gradually burn up the fountain of life. Diseases and Conditions Peculiar to

Females. The beauty and extreme delicacy of the female organization, to say nothing of its physiological characteris-tics, are sufficient indications that it is sub ect to forms of disease and modifications peculiar to itself. The the body and mind, and the Author's New Treatment of physician of the present day does not encounter any more forms of uterine diseases than did the physician of fifty years ago; but owing to the present social condition

consumption bear ample witness.

At the American Dispensary we treat by a new method, and with the happiest results, Prolapsus Uteri, (falling of the womb,) Eruptions of the Merchant Tailoring Establishment, Skin, Chlorosis, or Green Sickness—characterized by yollowish, dirty green pallor of the surface; Emansio Messium, or absent Menstruation; Amenorrhea, or Retention of the Menses; Dysmenorrhea, a painful and difficult flow of the Menses; Menorrhagia, or profuse Mensel. struction; Leuchorrhea, or excessive and altered secre-

tion of the mucus-generally white, or nearly coloress and transparent. Beader, I have given you a class of diseases that are met with in Females of all ages, whether married or unmarried; and to married Females would say that there are many other forms of diseases peculiar to your sexdiseases of Pregnancy, Parturition, and Lactation, of which space will not admit an elucidation. I omit it for the council chamber, adding but one more disease to this list, and that is a formidable one—Ulcerstion of the

body of the Uterus. If you are afflicted with organic weakness, or any as-semblage of morbid phenomena of this character, you have no time to spare, but at once apply for med cel aid. If son late to arrest the disease, it is at least possible to paikate the symptoms, and thus smoothe the pathway to an petimely grave. In a majority of instances these diseases have made considerable progress before the patient becomes alarmed. In some eages an emaciation is the first indication

that attracts the attention of the patient's friends. And here, reader, let me call your earnest attention to the fearful significance of the word "wasting." it not only constitutes the leading feature, but the earliest and most ominous sympter a of Consumption, examples of which are invariably mot with in young ladies who are gifted with high intellectual endowments, refined accomplishments, and eyes flashing with unnatural bril-With one of Beiley's Patent Improved Renovators, liancy-not regarding these indications as being those by which Feathers are cleaned of all Moths, of incipient disease, but those of personal charms.

True, alsa! the poet sings-"Consumptions' cheek ne'er looks more purs And lovely, than when past all cure, And yet that bloom, so fresh so still, Has lest its fleeting aid to kill, And speaks, to those who watch itshue, Of s ckness, death and suffering too; Though who, just viewing anght so fair,

Could dream that death was there!" Address P. O. Box 1264. Poffice hours from 8 A. M. to 4 P. M. Room No. 24% . East Washington Street, Indianapolis, Indiana. fe bl6-dly
